CZAR AND KAISER WILL CONFER SOON

Reported Kaiser Will Advise
Against a Constitution.

Five Bomb-Throwing Outrages in
One Place and Eight Killed
by Them.

REACTION AGAINST GERMANY.

St. Petersburg, July 21.—The belief prevails that the advice Emperor William will give the czar during the present absence of the emperor from Russia will be not to grant a constitution to the people except as a last resort. Whatever course the czar may resolve upon, the result of the conference with the kaiser, will likely bring about a reactionary movement against Germany.

Killing 'Em Off With Bombs.
Tills, July 24.—The official report sent to Petersburg announces that five bomb throwing outrages occurred in Tills last week, and eight officials were killed and fourteen injured as a result. In only two instances were the bomb throwers arrested.

Kaiser Changed Route.
St. Petersburg, July 24.—Owing to a change in the route of the kaiser, he will arrive at Bjorkoe, north-west of Kronstadt, this morning.

Much Comment in Paris.
Paris, July 24.—Emperor Nicholas' cruise in the Gulf of Finland to meet Emperor William is the subject of much comment in the press. Certain newspapers express the fear that the German emperor will influence the Russian emperor over far eastern matters and hinder carrying out the peace program, while others are of the opinion that the emperor will seek to estrange France. The Journal Des Debats says the first acts of Emperor Nicholas on his return to Russia will be looked forward to with interest.

Knows What Russia Wants.
Paris, July 24.—As a sequel to the conference between Premier Rouvier and M. Witte at the foreign office Saturday, the Russian peace plenipotentiary held an extended conversation with M. Nelidoff, the Russian ambassador, after which a special courier left for St. Petersburg having dispatches for the emperor. The utmost discretion has been observed with reference to the exchange made at Saturday's meeting, but there is reason to believe that the French premier is now fully acquainted with the Russian standpoint and with the line of action which Witte will adopt at the peace conference.

Indiana Woman Then Slid Down the
Banisters and Called Police.
Elkhart, Ind., July 24.—Mrs. C. E. Eisenheiss shot a burglar in her house Sunday night, slid down the banisters to the telephone and summoned the police. The burglar escaped through a window, leaving a trail of blood but was afterwards captured.

Panic On Board of Trade.

Chicago, July 24.—A five-cent break in wheat today, caused a panic on the board of trade. The break affected July and September lines, and followed a resolution that pessimistic reports issued by special attorneys in the northwest were incorrect, and crops of July and September wheat would be big. Later the prices advanced.

The Vildest Man in the World.
New York, July 24.—Ed. Neidinger, called the vildest man in the world was sentenced today to 19 years and 10 months in Sing Sing. Neidinger was convicted of criminal assault on young girls.

JUDGE ALTON PARKER.

And Grandson Had Narrow Escape
From Drowning Saturday.

Poughkeepsie, N. Y., July 24.—Judge Alton B. Parker and his grandson, Alton Parker Hall, the 5-year-old son of Mrs. Charles Mercer Hall, were rescued from drowning off Esopus Island, in the Hudson river, opposite the Judge's home, by Edward Fritz, a photographer of this city.

Young Hall was swimming on the back of the Judge, holding his arms about the latter's neck. Judge Parker was choked and cried for help. Mr. Fritz, who with his family, was waiting for the steamer Morris Block to return to Poughkeepsie after an outing, plunged off the end of the dock and swam to the two struggling in the swift current. At the Judge's home later, it was announced that both had fully recovered.

THE OLD LIFE

NAN PATTERSON SAID TO BE
PLAYING THE RACES.

She Drank Champagne and Attended
the Show on a Roof
Garden.

New York, July 24.—In spite of the admonition of Recorder Goff to keep away for her old life, Nan Patterson, after a little over two months of freedom, has returned to the race track. When discharged from jail she said she had put her old life behind her and was about to begin a new and better life.

In her old sent behind the boxes she was at Brighton Beach Thursday. She arrived in a red unit with an actress. The crowd gathered to stare at the woman and under the eyes of the watchers she drew from a handbag a roll of bills. To the bowing gambler she said: "What's the price against Sly Ben?"

"Eight to five lady," said the man. Nan figured a little while and then said: "I guess I'll try about \$10 worth." She stood up all the while the race was going on and pouted in disappointment when Sly Ben did not do better than second. Nan seemed to enjoy the notoriety and she walked around the grand stand before she went to the dining room where she imbibed several glasses of champagne. After a dinner at the hotel she was with a party of men who occupied a conspicuous box at a roof garden and she seemed to enjoy the curiosity she aroused in the audience as much as the show.

Washington, D. C., July 24.—The grand jury of the District of Columbia met today to consider the cotton leak scandal. Attorney General Beach, with the secret service men, who have been working on the case two weeks, believe they have obtained enough evidence to indict at least one man, possibly several.

EFFORTS TO KEEP OUT YELLOW JACK

New Orleans Officially Admits
Presence of Malady.

The Government Dispatches Experts
to Scene—Quarantining Begins
in Many Places.

ONLY ONE DEATH REPORTED

New Orleans, La., July 24.—The Louisiana state board of health has officially admitted that yellow fever was present in New Orleans.

No absolute statement of the amount of the fever was given out although Dr. Soncheu, president of the state board of health, said there had been six deaths, of a suspicious nature and that there were from 30 to 40 suspicious cases in the city.

An autopsy was held on one of the Italians and at the close the physicians announced that death resulted from yellow fever.

The section of the city to which the suspicious disease has been confined has been absolutely isolated, and the houses in which it has occurred have been quickly fumigated. There has been no spread of the disease, which is no more than a violent attack of typhoid fever accompanied by symptoms of Bright's disease.

There is a strong probability that today the state board of health will quarantine against the Central American ports where yellow fever is known to exist.

Comparatively few people are leaving the city.

Embargo Goes On in Texas.

Houston, Tex., July 24.—Rigid embargo has been established against bringing passengers into Texas from New Orleans.

Federal Government Acting.

Washington, July 24.—Officials of the public health and the marine hospital service are working in harmony with those in Louisiana by efforts to prevent any spread of yellow fever.

Dr. A. H. Glennan, acting surgeon general in absence of D. Wyman now in Honolulu dispatched Surgeons G. M. Gutierrez from Cairo, Ill., T. H. Hich-White from Mobile to New Orleans to assist the marine hospital officials stationed there.

The thorough outgoing passenger medical train inspection service will be organized so as to prevent the departure of any persons who may have been exposed in any way to the disease. The application of the methods employed in Havana for stamping out the disease will include the destruction of mosquitoes and screening patients infected with the disease. Dr. Glennan said tonight that the situation was in hand and expressed the hope that the disease will not spread.

Havana Quarantines.

Havana, July 24.—On account of the existence of yellow fever in New Orleans, quarantines have been declared against that port.

Montgomery Quarantines.

Montgomery, Ala., July 24.—The city of Montgomery yesterday through acting Mayor McIntyre, issued an official proclamation of quarantine against the city of New Orleans and other infected sections on account of yellow fever alleged to exist in the Louisiana metropolis.

Fever Expert Leaves Cairo.

Cairo, Ill., July 24.—Marine Dr. G. M. Gutierrez, surgeon in charge of the United States Marine Hospital here, has been ordered to New Orleans on special service duty, in connection with the discovery there of yellow fever.

Dr. Gutierrez is a renowned yellow fever expert and has seen much service in epidemics in the employ of the government. He was in charge of fever patients at Havana and Santiago, during the American invasion of Cuba and last year was in charge of the epidemic in Texas.

During his absence from the city, Dr. W. C. Clarke is in charge of the Marine Hospital and the patients there.

The total amount of money spent during the year for teaching and other educational expenses in the county was \$11,817.60.

GREAT EXCITEMENT OVER BRUTE'S DEED

Negro Assaulted White Girl
Near Cairo, Ill., Last Night.

Narrow Escape From a Mob—Now in
Jail and Confesses to His
Guilt.

MAY BE A LYNCHING TONIGHT.

Cairo, Ill., July 24.—Bob Bell, a negro of this city, last night committed a criminal assault on Fannie Simmons, a pretty 16-year-old white girl at the home of Mr. H. C. Mulchay, near Willard, this county.

The negro entered the house about 11:30 and holding a large butcher knife at the girl's throat compelled her to keep quiet while he accomplished his purpose.

When the negro left, the girl, almost crazed by fright, alarmed the household and Mr. Mulchay went out and found the negro.

After he had left the girl's room the negro had hidden in a hay stack and pretended to be asleep but the girl identified him and he later confessed.

The news spread quickly among the farmers, who formed a plan to lynch him.

Mr. Mulchay turned the negro over to Constables E. P. Mulchay and C. E. Foster, of Willard, who put Bell into a light buggy and drove to Cairo and turned him over to the county jailer Mr. Riggles, who locked him up at 3 o'clock this morning.

On their way to Cairo, the constables encountered a mob, composed of about 50 farmers. They made a detour through the field and succeeded in evading the would-be lynchers.

After he was locked up the negro again confessed to the crime.

The constables reported the condition of the girl as very serious.

Little Prospect of Lynching.

Cairo, Ill., July 24.—Bots Bell, who is charged with criminally assaulting Fannie Simmons at Willard last night, is in the county jail here. He now claims he is innocent, although having admitted his guilt to jailer Riggles last night. His victim is in a precarious condition. Bell was charged with a similar offense against a little colored girl here sometime ago. There is little prospect of a lynching.

JOHN F. WALLACE

May Become President of Seaboard
Air Line Railroad.

Atlanta, Ga., July 24.—The Constitution today says: "A persistent rumor is afloat in railroad circles to the effect that John F. Wallace, formerly chief engineer of the Panama canal, is to be made president of the Seaboard Air Line railroad. The report cannot be verified but comes from an apparently reliable source."

Mr. Wallace Denies.

Chicago, July 24.—John F. Wallace, who recently retired from the position of chief engineer of the Panama canal, denied today that he was to become president of the Seaboard Air Line railway.

SIMPLE CEREMONIES

Marked the Laying Away of the Body
of John Paul Jones.

AFTER TWENTY YEARS

A Romantic Courtship Ends in
Marriage.

Cairo, Ill., July 24.—After a romantic courtship, which dates back twenty years when they were school children, Miss Sallie Alberta Bell, of Monmouth City, was married at 11:30 o'clock last night to Mr. Charles J. Bell, of Indian Territory. In the parlors of Uncle Joe's Hotel by Justice Steingala.

Twenty years ago, both the bride and the groom attended school in a small town in the central part of the state. They fell in love then and have been in love ever since. Their ways parted however, soon after they met and Bell went west to woo the fickle goddess of fortune, the bride moving to southern Illinois with her parents.

All of these years while Bell was in Indian Territory on his ranch, he was still wooing the girl in southern Illinois and she loved him the same as she did twenty years ago. They kept up a correspondence and a few months ago decided that they should wait no longer. Yesterday Bell arrived in Cairo and was met here last night by the woman who is now his bride.

A telegram this afternoon to The Sun from Vincennes states that all the clubs in the league have representatives there.

TEXAS OIL FIELDS BURNING FIERCELY

Half a Million Dollars Damage
Already Done by Flames.

A Number of Lives May Have Been
Lost, But It Is Not Known
Yet.

LIGHTNING STARTED BLAZE

Humble, Tex., July 24.—Fire started yesterday in a tank belonging to the Texas Oil Co., caused by lightning striking oil. The fire was held under control all afternoon, but began spreading to tanks adjoining.

Eleven great tanks were soon ablaze and over a million barrels of oil are consumed. One hundred teams are known to be cremated and a number of families have been burned out of houses and homes. All tanks of the Texas Oil Co., have caught fire. There will be considerable loss of property besides oil, which in itself may run up to three or four million barrels.

\$500,000 of Oil Burned.

Humble, Tex., July 24.—This morning 12 tanks of the Texas Oil company are still ablaze. Rivulets of burning oil are running toward the oil field. A heavy rainstorm saved the derricks. Oil valued at half a million dollars was destroyed and hundreds of homeless people fled from tents to shacks to save their lives. There is no confirmation of the report that five negroes lost their lives.

Cyclone Kills Two.

Racine, Wis., July 24.—A cyclone struck the northern rim of Racine county yesterday, killing two men and damaging property and crops \$100,000. It came from the southwest. For miles trees were uprooted and fences destroyed.

At Thompsonville a workman, name not known, was struck and killed. Near Union Grove, Adam Hunter, an old farmer, was picked up by the storm and his neck broken.

Spreading Ralls Cause Wreck.

Des Moines, Ia., July 24.—Brakeman James Murphy, of Trenton, Mo., was cremated in an oil explosion in the derailment of a Rock Island fast freight at Unionville, Iowa. Conductor Horace Davidson and Fireman William Fletcher, both of Trenton, were perhaps fatally burned. The wreck was caused by spreading rails. Fourteen cars of merchandise were burned.

SLICK CUSTOMERS

Are the Thieves Operating On the
South Side.

Officers Dugan and Hession, Clark and Brennan, who work the Jersey and Mechaulesburg beats, are keeping a vigilant lookout for the thieves, who have been operating in that portion of the city, and have come to the conclusion that there are two, and very slick customers at that.

No new robberies were reported last night, but Mr. Frank Crane, who resides on South Third street between Husbands and Caldwell streets says that he thinks an attempt was made to enter his house last night, but that he frightened the would-be burglars away.

The police think that several cases of attempted robbery reported are erroneous and due to the natural tense feeling of the residents who suspect burglary at every sound. They have adopted a plan by which they think the thieves will be caught if they attempt to practice their work any further.

Red Men Leave For Murray.

A degree team from the Paducah Red Men leaves this evening about 7 o'clock on a special train for Murray, Ky., to install the new Red Men's lodge there. Saturday's Game.

Vincennes, Ind., July 24.—A large crowd saw the Indians win Saturday's game from the Alice Men. Hrabie and Witt pitched good games, but the only run Vincennes could make was on a hit and two errors. Hrabie was almost invincible and after the third inning not a score was made off him.

The score:

Manager John Ray, of the Princeton team, has released Pitcher Akers and Fielders Wagner and Tante and signed McAndrews and Meyers, of the Hopkinsville team, and Pitcher Gilbert, of the Henderson team. Meyers will play first base, Tante the outfield and McAndrews the infield.

Henderson, second baseman for Hopkinsville, has returned to Evansville. He was loaned to Hopkinsville for the team of that place. He played one game with Vincennes.

Meyers has had more chances than any first baseman in the league.

Rutledge, of the Hopkinsville team, has the best catching average in the league with land second. Rutledge has caught about half the number of games land has and this is why his average is one point higher than Land's.

Brady, left fielder for Hopkinsville, has gone to Evansville to join the Central league team of that place.

Wiley Platt says that Paducah can hold her own in the Southern league and he ought to know, having played with Nashville last season. He says there are two or three cities in the Southern league that have not as good average attendance as Paducah and that as far as the team is concerned he believes that he could take the Indians as they stand and fight about even with even the leaders in the Southern league. Platt says the team work of the Indians is nearly perfect.

People wonder why Paducah is playing such good ball. The mystery is easily solved. Paducah heretofore has had a corps of bad pitchers and this year they are all stars. Moreover the team is stronger, the Indians' lineup being fast as possible to get in a league of the Kitty's standing.

Nickens, once in the Kitty, has been released by Little Rock and gone to Greenville, Miss., in the Cotton States league.

Grover Land, the Indians' big catcher, had not been hitting well until a few games ago when his batting took a decided jump and carried him for the series far above the 400 mark.

Land's secret lies in his new position and he certainly has learned to draw the ball over the plate and within the right height for him to place it. Land takes his position at the bat, plants his right foot firmly behind the plate and lets his left foot heel down, dig into the soil. He crouches low and draws the ball over the plate. If the ball is high for his position, he raises up and lets drive. Since adopting this position Land's batting has been decidedly better and the fans will be glad to see the Big Man improve in his hitting, the only point in which he was ever deficient.

Alonso Hedges, the pitcher, is organizing a club here to enter the city league and expects to take everything. He will entice and Henry Dicke will pitch. Other members of the lineup will be Luffenberg, Smith, Wilkins and Lorton Plunlee, all well known local amateur players.

Saturday Clark robbed a white boy on a freight train, north of Hardwell, and was in the act of throwing him off the car when he was seen by a white man who fired upon the negro, wounding him fatally. It is thought a confederate of Clark's escaped and is being sought by special agents of the railroad. The gang of thieves had almost become a terror to trainmen. Mr. Charles Epstein a former resident of Paducah and son of Mr. Sport Epstein was in the city yesterday en route from his home in Louisville to Texas, Oklahoma and other southwestern states on a drumming trip.

Mr. Epstein after his removal to Louisville from Paducah over ten years ago went to college and later entered the service of the Tri-Wisley Co. of Louisville, as a traveling salesman and is now employed in that capacity. Yesterday was the first time he had been here in nine years and was agreeably surprised at the wonderful growth and progress of his home town. He remained with relatives throughout the Sabbath, leaving at 6 o'clock for the south.

PROTRUDING HAND

RESULTED IN DISCOVERY OF
HODGE WHITNEY'S BODY.

Found by Crew On Mary N Three Miles Below the Place Where He Was Drowned.

A human hand protruding above the surface of the water attracted the attention of Engineer Clay Warden, of the steamer Mary N, late Saturday afternoon near the St. Bernard Coal tipple in Mechanicsburg, and led to the finding of the body of Thomas Hodge Whitney, foreman of the Paducah Sand company's dredge, 12 miles below where he lost his life Friday afternoon.

The Mary N was the first boat sent to the scene in the effort to recover the body, but had abandoned the search and was drifting out from the tipple with a barge of coal when waves from the wheel are supposed to have dislodged the body and brought it to the surface.

It was towed to bank and taken to the Paducah Undertaking establishment, where an inquest was held yesterday morning at 8 o'clock by Coroner James Crow, resulting in a verdict of accidental drowning. The funeral took place at 5 o'clock yesterday afternoon from the home of the young man's parents, Mr. and Mrs. J. H. Whitney, 817 South Sixth street, burial at Oak Grove.

NATIONAL BANKS — MUST PAY TAXES

On Their Government Bonds,
Declares Judge Paynter.

Injunction Issued Several Weeks Ago Dissolved at Frankfort Saturday.

MEANS \$100,000 TO THE STATE

Frankfort, Ky., July 24.—Appellate Judge Paynter has dissolved an injunction granted by Circuit Judge Stout of the state fiscal court, in the case of the American National National bank, of Paducah, and others, against S. W. Hager, auditor, restraining the state board of valuation and assessment from considering the funds of national banks invested in United States bonds in seeking to arrive at the value of the shares of stock of such banks for the purposes of taxation. Judge Paynter says that the plaintiffs have not shown, in presenting the case to him, that they are entitled to the relief sought, and that he does not believe that either the state or federal government intended to, or did devise a system of laws for the assessment of the property of state or national banks which produces such gross inequality and injustice in gathering taxes for the support of the government as is contended for by counsel for plaintiff in this case.

The contention of the plaintiffs was that the state board should be required to deduct from the total capital surplus, and undivided profits of national banks the amount of funds they have invested in United States bonds before assessing the shares of stock of the banks for taxation.

The ruling of Judge Paynter will enable the auditor to certify out to the banks and collect the taxes due for this year, amounting to about \$100,000, which would have been tied up for months in the courts, had the ruling sustained that of Judge Stout, of the lower court. Some half dozen cases were filed in the United States district court and these will not be affected by the decision, but will go over to the fall term, of that court, through an agreement of the attorney general, in dissolving the injunction, Judge Paynter delivered a short opinion, in which he says in part:

"The capital, surplus, and undivided profits of the state banks and trust companies in the state amounts in round numbers to \$19,000,000. That of national banks in round numbers to about \$19,000,000, so the capital, surplus and undivided profits of all the banks and trust companies of the state amounts to about \$38,000,000. If the theory of the plaintiffs is sustained, nearly all of the banks and trust companies in the state will be relieved from the payment of any taxes to the support of the state, county and municipal

governments. The only ones of the financial institutions that will be required to pay any taxes are the trust companies whose capital stocks are very large compared to their deposit accounts, and for that reason cannot afford to buy and hold United States government bonds equivalent to their capital, surplus and undivided profits. Banks and trust companies could buy government bonds the day before the law required their property to be assessed, which would be equivalent to their respective capital, surplus and undivided profits, and sell the bonds the following day and thus avoid the payment of their fair share of the burdens of the government. If a bank could escape the payment of taxes by investing in government bonds a sum equivalent to its capital, surplus and undivided profits, it would be profitable in most cases to hold the bonds as an investment because the interest on them added to the taxes saved upon the amount represented by them would constitute a profitable investment.

"My attention has been called to a statement of the First National bank of Owensboro, which shows its capital stock to be \$137,900; its surplus and undivided profits \$40,550; total \$178,450, and that it owns United States government bonds amounting to \$370,000. Counsel for the plaintiff in argument admitted that upon his theory this bank would not be required to pay taxes to the state, county or municipality. This illustration is given to show the practical effect to the plaintiff's claim if sustained.

"The claim is made that although the government bonds are purchased with the funds held by the bank, which were deposited by its customers, still the amount of the bonds so purchased should be deducted from the assessment, notwithstanding this court has adjudged that the fund so deposited is held by the bank as a general trustee for the depositors, and is not subject to taxation in the hands of the bank."

It was stated today by local bankers interested in the suit, that Saturday's decision really means very little, as the dissolution of the injunction does not settle the case, which comes up at the proper time to be tried on its merits.

It is likely the case will not be finally settled until it reaches the United States supreme court.

Daily Thought.

All knowledge which is not followed by action is unprofitable and imperfect, like a beginning without an end, or a foundation without a superstructure.—Cicero.

It is being hinted that Paducah will have a difficult time maintaining the new hospital, which is so up-to-date that considerable revenue will be required to run it. It cannot be determined at present, however, how well the current expenses can be defrayed with the appropriation for this year, as a great deal depends on the pay patients. One thing is certain, however, if the administration desires to keep up the hospital it can do so. Entirely too much money is wasted every year, particularly on so-called street repairs, which consist of "repairs" which do not repair, and never will repair until the city starts buying worthless gravel. Most of the gravel is mud in wet weather, and dust in dry weather. The city may now spend less and less every year for repairs to the streets because of the paving, and if the street appropriations were curtailed several thousand dollars every year hereafter and the money devoted to something else—maintaining the new hospital, for example—the city would be greatly benefited by it.

"Graft, graft everywhere in the public service. The people are being robbed right and left. Washington dispatches show that grafting is pretty general throughout the government printing office. Supplies are bought of persons who favor employees, machinery is bought on which employees get rake-offs, and machinery and materials in good condition are sold at nominal prices under condemnation orders and bought by favored buyers. Had the voters embraced the opportunity last fall to turn the rascals out, things would not be thus at the nation's capital," declares the virtuous organ of the Kentucky Democratic Journal. How about that, Mr. State Journal? How about that \$70,000 Calhoun fee, and the scandals at the various state institutions that have cropped out at various times only to be smothered by those who would have exposed them, if they had followed the example set by these some "rascals" you want "turned out" at Washington.

Mayor Yeiser is reported to be in favor of experimenting in street building by putting down a lot of gravel, crushed rock and tar composition, with a top layer of sand. The mayor should remember that the present street material—brick, asphalt, blutlicht compound and other things, are the result of expert experimenting, and he can learn nothing that the experts have not already learned by the same kind of experimenting. The mayor could accomplish a great deal of good in improving the streets by recommending the

use of oil on them, as Lexington and Owensboro, Ky., Jackson, Tenn., and many other places are doing with great success.

Col. Frey Woodson, the politician-editor, has considerable responsibility on his hands just now. His Paducah paper is straining every nerve to land the Methodist college for Paducah, and his Owensboro paper is doing its utmost to take it away from Paducah and get it for Owensboro. In one he tells why it should be located in Paducah and in the other he tells why it should not be. He certainly has to be a very versatile man to so ably be on two sides of the same question at the one time.

The democrats of Paducah, perceiving the apathy that exists in regard to running for city offices this fall, are getting desperate and calling out good men by the wholesale. The primary is only a little ways off, and all entries have to be made by August 1st, hence, if something is not done soon there will not be enough candidates to hold a primary.

SWEATING PROCESS

CAUSED NEGRO BOY TO CONFESS TO CRIME HE WAS NOT SUSPECTED OF.

Broke Into the New Friedman & Keller Building About Two Weeks Ago.

Hennie Blakely, a 15-year-old colored boy, was arrested on suspicion yesterday, and his case affords a good example of what the "sweating process" sometimes accomplishes.

Officer Cross yesterday found the back doors of the old Friedman & Keller building open. There is a lot of paint, rubbish and such things in the vacant building, and the officer thought perhaps some of it had been stolen.

He and Detective T. J. Moore, while on the wharfboat a short time afterwards, began teasing an Italian boy named George Manghelli, about 15 years old, and in pretending they were going to search him, found in his pocket a silver deameter cap with "Hal Walters" engraved on it. Mr. Walters is an employee of Friedman & Keller's, and the officers thought perhaps the deameter cap had been inadvertently left in the old building and stolen, and arrested the boy on suspicion. He told a straight story, claiming to have given a negro boy named "Hennie," a chew of tobacco for it.

"Hennie" was arrested and claimed that he found the cap down on the "dump" and frequently found them there. The officers did not believe him, however, and thought he broke into the empty Friedman & Keller building Saturday night and found them. Detective Moore and Officer Cross started the case, and turned it over to Detective Will Baker, when the latter came on duty. Detective Baker sweated the negro so hard that the boy finally confessed to burglarizing the new Friedman & Keller building two weeks ago, and stealing a lot of wine, whiskey, etc., an offense of which he was not suspected.

The Italian boy was released and the negro's case was called in police court today and continued.

Old City Hospital Abandoned.

Berry Binker, a telegraph operator, was this morning removed from the old to the new city hospital, he being the last patient in the old institution which, by this action of removal, is now out of service. Matron Sarah Birchett will remain in the building a few days longer until she can get her furniture packed and ready for removal.

Colored Baseball Games.

Ben Boyd's colored team went to Mayfield yesterday and defeated the team of that place by a score of 16 to 4.

The Chittanooga colored team arrived this afternoon and will open a series of games with Boyd's team this afternoon at Wallace park.

MOUND CITY DIKE TO BE STARTED SOON

Capt. Oscar Barrett, Who Has Contract, Here Today.

Is Preparing to Get Stone for Contract—Low Water Is All He Is Now Waiting for.

WORK TO TAKE 4 MONTHS

Capt. Oscar M. Barrett, of Cincinnati, of the Barrett line of steamboats, arrived in Paducah this morning to make preliminary arrangements to build the two dikes at Mound City, Ill., a government contract for which he secured thirty days ago. The advertising of the contract by the government was gone about quietly and little if anything has been in the papers about the letting of it. The news that it has been let will come as a pleasant surprise to many here and at Cairo.

Capt. Barrett, accompanied by his St. Louis agent, Capt. W. J. Lewis, arrived today in Paducah on the steamer Beaver, which has just received a new hull. They are en route up Tennessee river to look after stone to be used in constructing the dikes and will be gone several days. Capt. Barrett was seen by a Sun reporter this morning and gave out facts relative to his contract and the completion of the work.

The government originally intended to build three dikes in the lower Ohio, one at Ogden's Landing, and two at Mound City, he said, but after the appropriation had been whittled down, it was found that only \$37,000 could be allowed this improvement which cut out the dike at Ogden's.

The work was advertised in the St. Louis papers and few persons knew what it was for besides contractors, which is the reason little was said on the outside. These dikes will mean a great deal to the people at Paducah and Cairo. It will mean a good stage of water between Paducah and Cairo, always a good stage at Cairo. Of course the Ogden dike would better the situation but this will follow later, possibly next year, when the rivers and harbor appropriation is made.

"I expect to start work within thirty days, when the river reaches a 15 foot stage at Cairo, and will complete my contract within four months. I have made some preliminary arrangements and am now en route up the Tennessee river to stone quarries to see about getting the stone."

Capt. Barrett and Capt. Lewis are both of the opinion that the marine people generally should repeatedly and persistently demand a larger and continuous river and harbor appropriation and state that this is the only way the rivers will ever get any appropriation.

"The annual appropriation has been too small and after it has been shined down by the government," Capt. Lewis explained, "the interior rivers get little or nothing. This small appropriation for the Ohio will do a world of good, but there yet remains a great deal to do in the way of improvements and the people should demand that the government make a large appropriation for the interior rivers. This can not be made too strong by the press, because it is going to be taken up all over the country and worked to the bone."

"The greater portion of the appropriation goes to the harbors. In the east, west and south, and also on the lakes, and when the government gets through splitting it up, the interior rivers get but little. What the interior men intend to do is to get after the government good and strong and make it see that the inland rivers are just as important to the commercial success of the country as the outside harbors."

The only reason that Capt. Barrett has not begun work on the dikes before now is that the river has been unusually high for this season of the year, and he has had to wait for low water. He is an expert in the line and needless to say will give the government as good and quick a job as it could possibly get.

The dikes will practically enable boats to run between Paducah and Cairo the year round. Frequently the river gets so low between here and Cairo that even the smallest boats cannot run, completely suspending navigation from here to Cairo. When the dikes are completed this will likely be a thing of the past, and boats can run the year around.

In another year or two a dike will likely be built at Ogden's Landing also which will further benefit the Ohio between Paducah and Cairo.

AUDITOR HAGER AND AGENT LUCAS CLASH

Auditor Butts Into Paducahan's Work at Hopkinsville.

Old Trouble Resulting From Lucas' Refusal to Be Dusted Is Now Renewed.

THE AUDITOR TO BE DECEIVED.

State Auditor Hager, of Frankfort, and Auditor's Agent Frank Lucas of Paducah, are having another little round. Auditor Hager has been trying to oust Agent Lucas ever since he, Hager, went into office, and has been defeated by the plucky Paducahan at every stage of the game, only recently winning in the court of appeals a test case that entitles Mr. Lucas to hold office two years longer than Auditor Hager desired and intended.

Mr. Lucas has since been more energetic than ever, and went to Hopkinsville a few days ago to remain two weeks settling with those against whom the state has claims for back taxes.

The Hopkinsville New Era says of the trouble there:

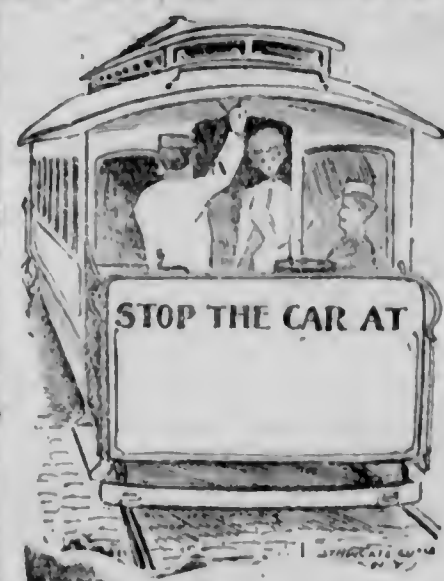

"This morning Auditor Hager telephoned Deputy County Clerk Wicks here, he understood Mr. Lucas was engaged in collecting back taxes in a large number of cases and asked if this report was true. When Mr. Wicks assured him that it was the auditor told him to notify all persons who came into the office that Mr. Lucas had no authority as a revenue agent to make collections and that all persons paying him money would be sued just the same. He stated further that the only steps which could be taken by a revenue agent in the case of back taxes was to report the case to the county clerk to have assessments made and certify the assessment to both the county court and the state auditor. Collection would then be made by the sheriff in the usual manner."

"Mr. Lucas made the following statement to the New Era:

"There is nothing whatever in the auditor's threat that serious settling with me will be sued again. I am under heavy bond and must account for all money paid to me. Under the decisions of the court of appeals and the uniform practice of revenue agents over the state, agents are permitted to adjust these matters without suit, and have the property found to be omitted assessed by an agreed order of the county court. This was the plan I was pursuing, and my only object was to save trouble and costs to the taxpayers and trouble to myself. I will still continue to settle with such persons as may desire, and will file suits, enjoining costs, against all others against whom I have claims."

"The entire matter arose from the personal spite of the auditor against me because I refused to be removed by Auditor Hager when the latter came into office. My right to hold the office of revenue agent was made the subject of a suit, which was carried through the court of appeals, and decided in my favor, both in the circuit court and the court of appeals."

CHILDREN'S OUTING

MRS. AND MRS. CHILES HAVE MADE ALL ARRANGEMENTS.

The Date Set for Wednesday, July 26th, at Thompson's AMH.

Mr. and Mrs. R. W. Chiles, of the Resene Mission, have fixed on Wednesday, July 26, as the date for the picnic and grand outing for the poor children of Paducah.

It is the intention to take all the poor children of the city, of the ages from 5 to 13, out and give them an old-fashioned picnic in the woods. Mr. and Mrs. Chiles have been working up the project and have about finished all arrangements and asked The Sun to solicit the assistance of its readers.

It is a laudable scheme and should have the assistance of every one, and The Sun asks that all of its readers who can send in a donation for the picnic, either in cash or in a lunch basket. There will be about 200 youngsters and it will take a good deal to feed them and it is only in this way that the outing can be made a big success.

Mr. Chiles tells below something of his plans and The Sun commends it to its readers:

Send to Mr. and Mrs. Chiles, 421 South Third street such an offering as a philanthropic heart would suggest that the little poor children from 5 to 13 years old may have a day in the open, fresh country air, a nice ride and plenty of refreshments, to gladden their young hearts; a day long to be remembered as a gift from the good citizens of Paducah, Ky. Baskets of provisions which will be a delightful part of the occasion, will please be sent to Third and Adams street, to approach the mission hall in the rear, as the condition of Third street won't admit of wagon passage. Come through to Mr. Henry Kunkle's side gate on Adams, Tuesday afternoon July 25, or by half past 7 o'clock, anyhow by 8 a. m., next morning, as we expect to start the procession of wagons headed by the Gospel wagon, with music, loaded with little fellows with throbbing hearts expecting a good day, at 8:30 a. m., July 26 for a beautiful and suitable place three miles on the Cairo gravel road opposite Thompson's saw mill. We kindly ask the expression, grocery wagons, wood and delivery handlers, in fact everybody who can, to give these little fellows conveyance to the place of starting by the appointed hour and if possible assist them to return to their homes, as we will get back to Third and Adams by 5:30 p. m. Parents need not hesitate sending their children as the best of care will be used. Trusting all will appreciate the opportunity and asking God's blessings for success; any one having their own conveyance and will bring a well-filled basket submissive to the managers and assist to care for and see the little folks enjoying lemonade, romping, singing and playing on the green, shady lawn and hear the good music and sweet songs and feast on the little end after the little ones are supplied are welcome to share the joys of the day with us. All who cannot send donations (and send if you possibly can) will please phone us No. 1073 old phone at the earliest opportunity. With thanks to God and all contributors we are yours humbly.

NINE FOOT STAGE WILL BE OPPOSED

The Survey of the Ohio Will be
Long Delayed.

If Reports From Washington Count,
a Hard Fight Will Be Made
Against the Project.

CONTINUED DELAY THE GAME

Pittsburg, July 24.—A Washing-
ton telegram to the Dispatch says:
The advocates of a nine-foot channel
for the Ohio river will probably have
many heartaches before that great
project is begun in such a way that
they can see the result of their exer-
tions. There is evidence here that
there will be no hurry about the
work of examining the river, in ac-
cordance with the provisions of the
last rivers and harbors bill.

The examination must be made be-
fore the advocates of the improve-
ment can reasonably ask that the ap-
propriations for any part of the pro-
ject be made.

It is coming to be the understand-
ing here that it will take at least
two years to finish that examination,
although when some of the engineers
discussed the subject they felt sure
that the examination could be made
during one congressional recess.

If two years are consumed it means
that the report will not go to con-
gress until some time in the winter
of 1907-8. If congress should act im-
mediately the appropriation could be
had for the fiscal year beginning in
July, 1908.

There is a suspicion that this lack-
admission procedure will be pleasing
in the sight of those who control
the work of the river and harbor
committee. They have been standing
off the nine-foot project for so many
years that they got tired of resisting
the pressure by direct means, so they
hit upon the plan of using the force
they possess indirectly.

The proposition to have a survey
of the river made was opposed by
the controlling element. Why is be-
coming clearer now than it was at
the time. After an examination is
made if the report is favorable, as it
will be, a survey ordered in the riv-
ers and harbors bill, passed soon af-
ter the report is made, would serve
to still further delay the project.

Inasmuch as no work is under-
taken without a survey, the navigation
interests will not be in as good po-
sition to fight such a delay propo-
sition as they will be if they make
sure that work is being done for pur-
poses of delay.

But if the navigation interests
keep up the agitation so that the ex-
amination will serve the purpose of a
survey the shoving of the project still
further into the future may be
prevented.

The condition of the federal treas-
ury at this time is sufficient warrant
for the ruling coterie of the house
to decide that there can be no ap-
propriation for the project, but un-
less those who have pushed the pro-
ject thus far keep up the agitation
the federal treasury will never be
deemed to be in condition to stand
the strain of an appropriation for
the deeper Ohio.

THIS FIRE EATER

SAID HE WAS FROM PADUCAH—
LIVED HERE A YEAR OR
MORE.

Went to Louisville a Week Ago to
Perform and Died From the
Effects of Poison.

As the result of inhaling and swal-
lowing the fumes from phosphorus
which he used in his street perform-
ances of eating fire, Charles D. Ken-
son, of Bone Gap, Ill., died of phos-
phoric poisoning at the city hospital
at 5:30 o'clock yesterday afternoon,
says yesterday's Courier-Journal.
Kenson had been suffering from the
poison about two days and nights.
He was first taken ill in his room at
Hardesty's restaurant, 332 Third
street, Wednesday night. He grew no
better next day and the employees
around the restaurant tried to get
him to go to the hospital. He stub-
bornly refused.

About noon yesterday Kenson
grew rapidly worse and a call was
made for the city ambulance. When
the ambulance responded the physi-
cian in charge examined Kenson and
found that his condition was appar-
ently normal. Kenson complained
that he was aching all over. He was
taken to the hospital and on being
assisted out of the ambulance, he
walked into the building. On being
told that Kenson used phosphorus in
his exhibitions, the physicians at the
city hospital soon realized that the
patient was suffering from phospho-
rus poisoning and that his condition
was rapidly growing worse. Shortly
before he died he became unconscious
and his death was seemingly pain-
less.

Kenson came to Louisville about
a week ago. He came here from Pa-
ducah, where he lived with his wife,
and for a year or two had been en-
gaged in pearl fishing. Some time
before he came here he and his wife
separated. His father, C. J. Kenson,
lives at Bone Gap, Ill. Kenson was
about thirty-five years of age and
most of his life he had been en-
gaged as a street faker. One of his great
feats was to jump on broken glass
with his bare feet. The other feat
in which he attracted much attention
and which led to his death was that
of fire-eating.

seemed to know what burned until
yesterday, when it was learned that
a farmhouse of Dr. J. T. Willis, of

The Return of SHERLOCK HOLMES

By A. CONAN DOYLE

Author of "The Adventures of Sherlock Holmes," "The Hound of the Baskervilles," "The Sign of the Four," "A Study in Scarlet," Etc.

ILLUSTRATED BY F. D. STEELE

The Adventure of Black Peter

No. 6 of the Series

(Continued from yesterday.)

"Have you any reason to suspect robbery?"

"No, sir. Nothing seemed to have been touched."

"Dear me, it is certainly a very interesting case. Then there was a knife, was there not?"

"A sheath knife, still in its sheath. It lay at the feet of the dead man. Mrs. Carey has identified it as being her husband's property."

Holmes was lost in thought for some time.

"Well," said he at last, "I suppose I shall have to come out and have a look at it."

Stanley Hopkins gave a cry of joy.

"Thank you, sir. That will, indeed, be a weight off my mind."

Holmes shook his finger at the inspector.

"It would have been an easier task a week ago," said he. "But even now my visit may not be entirely fruitless. Watson, if you can spare the time I should be very glad of your company. If you will call a four wheeler, Hopkins, we shall be ready to start for Forest Row in a quarter of an hour."

Alighting at the small wayside station, we drove for some miles through the remains of widespread woods which were once part of that great forest which for so long held the Saxons invaders at bay—the impenetrable wood, for sixty years the bulwark of Britain. Vast sections of it have been cleared, for this is the seat of the first iron works of the country, and the trees have been felled to smelt the ore. Now the richer fields of the north have absorbed the trade, and nothing save these ravaged groves and great scars in the earth shows the work of the past. Here, in a clearing upon the green slope of a hill, stood a long, low stone house, approached by a curving drive running through the fields. Nearer the road and surrounded on three sides by bushes was a small outhouse, one window and the door facing in our direction. It was the scene of the murder.

Stanley Hopkins led us first to the house, where he introduced us to a hag, gray haired woman, the widow of the murdered man, whose gaunt and deep lined face, with the furrowed lines of terror in the depths of her red rimmed eyes, told of the years of hardship and ill usage which she had endured. With her was her daughter, a pale, fair haired girl, whose eyes blazed defiantly at us as she told us that she was glad that her father was dead and that she feared the hand which had struck him down. It was a terrible household that Black Peter Carey had made for himself, and it was with a sense of relief that we found ourselves in the sunlight again, making our way along a path which had been worn across the fields by the feet of the dead man.

The outhouse was the simplest of dwellings, wooden walled, shingle roofed, one window beside the door and one on the farther side. Stanley Hopkins drew the key from his pocket and had stooped to the lock when he paused with a look of attention and surprise upon his face.

"Some one has been lampering with it," he said.

There could be no doubt of the fact. The woodwork was cut, and the scratches showed white through the paint, as if they had been that instant done. Holmes had been examining the window.

"Some one has tried to force this also. Whoever it was has failed to make his way in. He must have been a very poor burglar."

"This is a most extraordinary thing," said the inspector. "I could swear that these marks were not here yesterday evening."

"Some curious person from the village, perhaps," I suggested.

"Very unlikely. Few of them would dare to set foot in the grounds, far less try to force their way into the cabin. What do you think of it, Mr. Holmes?"

"I think that fortune is very kind to us."

"You mean that the person will come again?"

"It is very probable. He came expecting to find the door open. He tried to get in with the blade of a very small penknife. He could not manage it. What would he do?"

"Come again next night with a more useful tool."

"So I should say. It will be our fault if we are not there to receive him. Meanwhile let me see the inside of the cabin."

The track of the tragedy had been removed, but the furniture within the little room still stood as it had been on the night of the crime. For two hours with most intense concentration Holmes examined every object in turn, but his face showed that his quest was not a successful one. Once only he paused in his patient investigation.

Copyright by Collier's Weekly

"THEN HOW DO YOU ACCOUNT FOR THAT?"

"Have you taken anything off this shelf, Hopkins?"

"No, I have moved nothing."

"Something has been taken. There is less dust in this corner of the shelf than elsewhere. It may have been a book lying on its side. It may have been a box. Well, well, I can do nothing more. Let us walk in these beautiful woods, Watson, and give a few hours to the birds and the flowers. We shall meet you here later, Hopkins, and see if we can come to closer quarters with the gentleman who has paid this visit in the night."

It was past 11 o'clock when we found our little ambulance. Hopkins was far from leaving the door of the hut open, but Holmes was of the opinion that this would raise the suspicion of the stranger. The lock was a perfectly simple one, and only a strong blade was needed to push it back. Holmes also suggested that we should wait, not

in absolute silence we crouched among the bushes, waiting for what ever might come. At first the steps of a few belated villagers or the sound of voices from the village lightened our vigil, but one by one these interruptions died away and an absolute stillness fell upon us, save for the chimes of the distant church, which told us of the progress of the night, and for the rustle and whisper of a fine rain falling amid the foliage which roofed us in.

STOLE GIRL

YOUNG MAN IS IN SERIOUS TROUBLE AT MAYFIELD, KY.

Eloped With the Girl and Is Said to Have a Wife Living Near Murray.

Elmer Prewitt is in serious trouble in Mayfield, Ky. He was arrested at Hickory Grove with a fifteen-year-old girl, Miss Mattie McClain, whom he is alleged to have stolen from her home at Sedalia, while her father was away. The couple are alleged to have been in Paducah last Monday. They claimed at first to have been married in Jackson, Tenn., and afterwards at Fulton, Ky., but it is said they were not married anywhere and that the man has a wife near Murray, and is badly wanted at Hopkinsville.

Prewitt had been working at Sedalia, and becoming too attentive to the girl her father ordered him away. He hired a buggy at Mayfield and went to the McClain home when the girl's parents were away, persuaded her to go with him and when her brother interfered, drew a pistol on him. They were in various places until located at Hickory Grove and arrested. The man had a pistol concealed on him, but no money. His home is said to be at Clarksville, Tenn.

Indigestion.

With its companions, heartburn, flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles. 50c bottle.

Former Paducah in Trouble.

Fred Perkins, about a year ago a clerk in Hotel Lagonarino, is said to be in serious trouble at Vienna, Ill. According to the papers there Perkins and John Betts attended a dance and a quarrel of some kind resulted in Perkins shooting Betts in the stomach, the victim dying the next morning. Perkins, whose father keeps a hotel at Vienna, surrendered, claims self-defense, and is in jail.

MEMORABLE RUN MADE YESTERDAY

Automobile Club Went Over 100
Miles, All Told.

Three Got No Further Than Murray
—Vast Crowds Lined the Route
All the Way.

NO SERIOUS MISADVENTURES OCCURRED

One of the longest and most event-
ful runs ever made by Paducah auto-
mobillists was that yesterday to May-
field, via Benton and Murray. There
were nine to start, but only six to
finish, and Mr. Dan Fitzpatrick car-
ried off the honors, arriving about
two hours ahead of the others.

Large crowds lined the roads in
many places, the people having read
in the papers of the run, and the Pa-
ducahians say one would have
thought a circus parade was due to
pass. There must have been thou-
sands along the route, and the auto-
mobillists were well pleased with the treat-
ment accorded them all along the
line.

The nine machines to start were:
Ben Welle, James Welle, Dan Fitz-
patrick, F. E. Luck, Sam Foreman,
Melvin Wallerstein, E. C. Clark, H.
A. Petter, Henry Arenz.

Messrs. Clark, Wallerstein and
Luck did not complete the run. Mr.
Luck had trouble about Palma, Mar-
shall county, and went no further
than Benton.

Mr. Wallerstein broke the sprocket
wheel and chain on his machine and
had to tow it two or three miles into
Benton, where a train was caught
back home.

Mr. Clark hit a telephone pole and
broke it in two, also disabling his
machine. He went on to Murray and
returned by train.

About a mile and a half this side
of Murray the Paducahians were met
by a committee of prominent Murray
citizens and taken to a big barbecue
that had been prepared for them.
There was everything imaginable to
eat, and the feast could not have
been excelled. The hospitable peo-
ple of Murray gave the Paducahians
the freedom of the city and everything
else they wanted, and it was with
mutual regret that the party resumed
its journey from Murray at 2:30 p.
m.

They reached Mayfield in due time.
Mr. Fitzpatrick at 4 p. m. and the
others on up to 6 p. m. The run from
Mayfield to Paducah was the most dis-
agreeable of all, about 100 miles of
road, the most disagreeable being mud
from the heavy rain. If anyone had
been about he would have enjoyed the
novelty of seeing Col. Ben Welle in
his automobile studiously guiding it,
and being drawn by two hired mules
through oodles of mud two miles
from Folsomdale to the gravel road.
Mr. Fitzpatrick arrived home about
7 p. m., Mr. Ben Welle and Mr. H.
A. Petter about 8, Mr. James Welle
about 8:45, Mr. Henry Arenz about
midnight, and Mr. Sam Foreman
about daylight this morning. The
latter was delayed mainly by assist-
ing those whose machines broke
down. He was machinist for the party,
and one man alone stopped about
25 times and Mr. Foreman had to
stop each time to assist him.

The party, it was learned from the
cyclometer, made 100 1/2 miles. In
one place 12 miles sharp were made
in 45 minutes.

UNCAMPOGARY.

Paducah, Ky., June 20, 1905.

I have tried uncampogary in place
of quinine on my own child, who
had fever and I think it is a sure
and successful substitute for quin-
ine without the bitter taste and ill
effects on the head.

DR. LEE DEMYERS.

The above is a new tasteless quin-
ine form for babies and children
who cannot take capsules. It is mak-
ing a big hit. Try it. At all drug-
gists. Smith & Neger, special agents,

cured.

a \$150 bond, which he gave, for pet-

Saturday evening about 7 o'clock
Messrs. I. D. Wilcox, Dr. Vernon

and pocketed the money he was
arrested and later tried to turn the
money over to Dr. Blythe, who re-
fused to take it. Evans claimed the
drunken man came to and walked out
the cab at the hotel, made him
promise to return the money and
take him to the depot to a train.

fight with an aged negroess named
"Phoebe", and bit her on the
ear. The assault was provoked by
